Professional Summary

Frontend Engineer with 3+ years building enterprise HR-ERP modules and responsive web apps with Angular, React, TypeScript, RxJS and PrimeNG, from Figma designs to REST API integration and client demos. Growing into full stack (Supabase, PostgreSQL, Node.js, C#/.NET). Works daily with AI coding tools (Claude, Cursor) guided by written project rules, and reviews and tests every change before it ships. Learns new stacks quickly and keeps developing his skills.

Technical Skills

- **Frontend:** Angular (RxJS, Signals, Reactive Forms, Guards, Interceptors), React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, PrimeNG, Next.js (basic)
- **Architecture:** Nx monorepos, Module Federation, Micro Frontends
- **Backend, Data & CMS:** Node.js/Express, REST APIs, PostgreSQL/SQL, Supabase, Firebase, MongoDB, Python, C#/.NET (learning), WordPress (Headless, WooCommerce, ACF)
- **AI-assisted development:** Claude, Cursor, ChatGPT, AI-assisted coding, refactoring and code review, project rules (AGENTS.md, Cursor rules)
- **Testing & Tools:** Jest, Vitest, Playwright, pgTAP, Git, GitHub, Azure DevOps, Postman, Figma, Webpack, Vite, Vercel

Professional Experience

Frontend Engineer — Microtec Egypt (Remote) · Oct 2024 – Present

- Own frontend delivery of enterprise HR-ERP modules with Angular, PrimeNG, RxJS and REST APIs, from requirements to production.

- Build reusable components, dashboards, data tables and business workflows with Signals, Nx, Module Federation and Micro Frontends.
- Work directly with Saudi-based clients on requirements and demos; collaborate with backend, QA and product teams; guide juniors.
- Use Claude and Cursor daily to draft, refactor and review code, verifying every change before merge.

Frontend Developer — Freelance · Jan 2023 – Present

- Deliver frontend solutions for tourism, sports, transport and healthcare clients with Angular, React and TypeScript, from Figma to deployment.

Network Operations Center (NOC) Engineer — Huawei · Jan 2022 – Oct 2024

- Owned Python automation for network device configuration, adopted by multiple teams.
- Monitored Access Network against SLAs; led root-cause analysis and escalations.

Frontend Instructor (Part-time) — Abuzeid Academy · Mar 2025 – Present

- Taught Angular, React and core web courses; built the academy platform (Angular, Supabase, Vercel).

Selected Projects

- **RouteOps — multi-tenant SaaS for staff-transportation companies** (Angular, TypeScript, Nx, Supabase/PostgreSQL): manages trips, drivers, vehicles, pay and profit reports. Built with Claude and Cursor, with every change reviewed and tested.
- **3lamko Bus:** transport platform with a client dashboard for messages and complaints.
- **CAF Sports, Hurghada Vibes Tours:** sports and tourism websites.

Education, Certifications & Languages

- B.Sc. Computer Science & Information Technology, Ahram Canadian University (2019)
- Certifications: Udacity Front End Web Developer, Digital Freelancing · NTI Web Design
- Languages: Arabic (native), English (professional working)
